

## U14 Weekly Update February 28<sup>th</sup>

Mother Nature ended our last training block in the blink of an eye – the storm came in with high winds that shut down multiple chairlifts. No athletes got blown away, thankfully. We only had 1 backpack flying down Jersey Wall – never a dull moment!

Last week, we had 15 athletes travel to Apex with coaches Charlotte, Zack, and Soleil for the BC Winter Games. I have heard amazing feedback and stories, and I look forward to hearing more this weekend! Congratulations to all for your perseverance, your results, and your representation of WMSC in the Okanagan Zone.

Our Whistler crew was training on Whistler and Blackcomb, with a few athletes forerunning the U16 races each day. We trained with great intensity, in full length GS and SL courses in preparation for this weekend's race.

#### **Important Message – Equipment**

Last weekend, coaches noticed some athletes' skis were very dull. This not only makes for difficult training conditions for the athletes themselves, but it also prevents them from making valuable changes to their skiing and it means coaches' feedback cannot be applied.

I would like to remind everyone that <u>SHARP SKIS are a basic expectation of the U14 program</u>. Athletes should be taking care of their equipment DAILY.

- Shops are great for resetting edges but will not always produce a sharp enough ski for training. You will have to finish sharpening them by hand. Coaches recommend visiting CSM in Function.
- If your athlete is learning how to tune their own skis and you are well-versed in ski tuning, double check their work.
- If your athlete is learning how to tune their own skis and you are not well-versed in ski tuning, reach out to coaches for additional support.
- We have offered both athletes and parents tuning sessions, some with relatively low attendance. Please attend these clinics so we can help you!
- Make sure you have the correct gear. <u>Sidecut</u> offers educational videos, watch those if you are unsure. They offer a discount to club families (CHGOLD) and offer free Whistler pick-up.
- Read through Scott's <u>Sharpening Clinic document</u> for more details.
